

## CUSTOM HOME PACKAGE

We can provide you with a complete custom home package kit from Paragon Homes featuring the best value in framing lumber, windows and doors, roofing and all other construction materials, delivered to your job site and ready to be raised by our skilled crews. Paragon kits are all-inclusive, with no surprises, and feature a unique R-32 Paragon Wall system and R-50 roof system for superb energy efficiency.

When you purchase a Paragon Home Package you're ensuring the best value for your hard earned dollars. A Paragon custom homes package features:

- High quality kiln-dried lumber
- Engineered floor, roof and tall wall structures featuring Weyerhaeuser engineered wood products for optimum performance
- Our unique R-32 wall system which helps ensure a more comfortable and energy efficient home
- Paragon standard R-50 roof insulation system
- High quality Energy STAR certified windows and doors
- Superior quality roofing shingles and underlays

We can also provide you with a full complement of options including:

- Hybrid timber framing elements including simulated bents, trusses and wall sections
- Custom timber decks and porches
- Post and beam floor systems
- Pine doors and trim
- Tankless hot water systems
- Grey water recycling systems

We include complete building construction plans with all of our home packages. All structural engineering is also provided and key elements such as roof trusses are stamped by an engineer. Our plans also include all mechanical system plans (HVAC, HRV, thermo-pumps, humidifiers). Paragon Home Packages are renowned as being the most customizable kits available. If you have particular needs, talk to us!
